

Veterans Elected In the Mid-Terms to Congress

As of 16 November 2018, here are the veterans from all services who were just recently elected or re-elected to Congress. This may not be completely accurate since some races are too close to call. However, having said that if one or more of these Members of Congress are in your AOR, I request that you pass this along to our membership so that they can reach out to the newly elected veterans to put our Marine Corps League on the radar and to establish a constituent relationship. We also need to reaffirm our relationships with the incumbents as 2019 is going to be a busy legislative time with some new political dynamics. Note that there are 11 Marines in the new Congress.

Here's the list divided up between those who ran as Republicans and Democrats:
