

**MARINE CORPS LEAGUE**  
National Headquarters

June 24, 2021

National Commandant Tobin

Subj: 2021 National Awards & Citations report

Sir Commandant:

Since this pandemic we had Marines still working hard for the League and have been recognized by their Detachments and Divisions for outstanding contributions.

During this time we have awarded two Heroism Awards that meant life and death for that person. I wish all Marines could read what they done in a time of need for another person. They should be highly commended for receiving this award.

We had seven Meritorious Unit Commendations for Detachments and their accomplishments in the community for volunteering for our fellow Veterans, Covid19 programs, helping the elderly and many more events to assist there local community. We should be very proud of these Detachments and the inspiration they have showed in their perspective communities.

The total number of Distinguished Gold Medal was forty-two Marines. I wish that I could submit the write ups on them but it would be quite lengthy. I can absolutely report these were some of the premier recommendations I've seen since being the Chairman.

In closing, I will be passing this Chairmanship onto another Marine and can only wish he or she has the same reward I've had in reading all the recommendations.

Kindly submitted,  
Jim Ransom  
Chairman
