31 July 2022

Sir Commandant Baker,

It has been my honor and pleasure to serve as the National Historian for the past year and as we get closer to 2023, my responsibility gets even more detailed.

Although the information is sparse, and involvement is light, I hope to have a small publication celebrating the 100th Anniversary of the Marine Corps League ready for the National Convention in Oklahoma.

Although I have asked, individual Departments have not provided much in the way of a written histories. Therefore I can only use the material found at National Headquarters, and sometimes online, to fill in the blanks to document our history.

This is not the ideal way of doing this but the historian office is mostly a solitary one so this is what I have to work with.

I hope in some small way I can document the anniversary of the League and the Detachments and Departments therein for future use.

Semper Fidelis!

Respectfully,

Gregory R. Ciesielski
