# Information you'll need to know to access VA Health Care:

## Am I eligible for VA Health Care?

Eligibility for VA Health Care depends on a number of factors:

- VA has rated you for a service-connected disability
- You received a Purple Heart or are a former Prisoner of War
- You are a combat Veteran who separated within the last 5 years
- You are eligible for Medicaid benefits
- Your family income is below the income threshold
- You served in Vietnam, Southwest Asia during the Gulf War, or Camp Lejeune during certain periods of time

**Note: Not all Veterans are eligible for VA Health Care. Work with VA to determine your eligibility as soon as possible.**

## What does it mean to be assigned to a priority group?

If you are eligible to enroll in VA Health Care, you will be assigned to a priority group based on your eligibility. **Your health care eligibility determines what type of VA Health Care services you can access and how much you will need to pay for those services.**

## How do I schedule my first appointment?

- **On your health care application** you can ask VA to call you to schedule your first appointment
- **Call** your local VA Medical Center to schedule an appointment

## What if I live far away or can't get an appointment?

VA provides health care for Veterans from providers in your local community outside of VA. Veterans may be eligible to receive care from a community provider when VA cannot provide the care needed. This care is provided on behalf of and paid for by VA. Community care is available to Veterans based on certain conditions and eligibility requirements, and in consideration of a Veteran's specific needs and circumstances. Community care must generally be authorized by VA before a Veteran can receive care from a community provider.

## Will I be covered for emergency care?

The most important thing in an emergency is to get to the nearest hospital or emergency department. If this is a VA hospital, you may be covered under your priority group eligibility. VA is continuously reviewing and increasing appropriate services to cover, however will only pay for emergency care at non-VA facilities **under certain circumstances.**

- After receiving emergency care at a non-VA facility, **call** VA immediately to understand what VA may cover.
