February 2023

Marines,

Welcome to our mid-winter conference. I hope everyone enjoys the camaraderie of being with our members from around our nation.

Since our National Convention, it has been my pleasure to meet with some of you at the events you have sponsored. Our Birthday Balls being the highlights. There is such an effort put in by many members to ensure these events are meaningful and congenial. Thank you all for your efforts.

Nationally, we, as our National Board of Trustees, are now able to convene frequently via the wonders of Zoom. Under the leadership of Commandant Baker, we have been able to deal with issues judicially and expediently we as a League have faced. At times, it is pleasantly providing support for projects beneficial for all of us. At times, some issues deal with deviations from our core principles. These issues need correction and I believe we have properly provided the proper and honorable actions in these situations.

I look forward to seeing everyone at our National Convention in Oklahoma City at which time I will be asking for your support as I will be a candidate for the office of your National Commandant.

Respectfully,

Warren Griffin
