To: National Commandant Johnny Baker

From: National Marksmanship Chairman Joseph Kier

CC: COO Bob Borka

July 22, 2023

The Marksmanship Committee Team has been very busy over the last year bringing everything up to where we need it to be so that we can continue with score finals and awards ready to be given out at the Mid-Winter Conference in 2024. These will be the results for the 2023 Postal Competition. We have been building relationships with shooting teams, organizations, and businesses across the country. We have been working with the Marine Corps teams in Quantico and Parris Island and have brought the leaders and some of the competitors from each into the MCL and our Marksmanship Team. The MCL Marksmanship Committee and MCL Shooting Team also have donated a Range sign for one of the ranges on MCB Quantico that they have been waiting to complete for years, they had approval but did not have the funds, so we got together and had the sign made and presented it to the staff at Weapons Training Battalion MCB Quantico. We are working on many other projects which will come out in the next year which we will announce as they come in our Marksmanship Committee Conference calls, we have been sending out inquiries as to any MCL shooters and or members who would like to be part of the conference calls. We will have a portion of our calls for MCL members to join in and ask questions and report how their individual shooting events are going. Anyone who hasn't let me know yet email me at cplkier90@gmail.com so they can be added to the list. All of the Marksmanship Documents should be corrected in the member Library, if not before the convention or shortly after. Thanks for your continued support.

Semper Fidelis

Joseph M. Kier

National Marksmanship Chairman
