Subj: National Sr. Vice Midwinter Report dated February 23rd, 2024

As the National Sr. Vice Commandant, it has been my pleasure to serve the Marines of the Marine Corps League I am humbled to have this opportunity to work for each member.

This report is a culmination of activities from August of 2023. Just like any Detachment or Department Sr. Vice, we have no specific job, but we serve the commandant as directed, so I would like to say it has been an interesting transition to Sr. Vice. I have served on special committees and have taken part in National Chapter 9 filings. Seems like when we get into leadership positions, we must face some in the MCL who have been brought before hearing boards either on a disciplinary or grievance item. These really can be taxing on all involved, so I challenge you all to keep your honor clean!

I so invite all coming to midwinter to come sit in on the Department Commandants Council. Do not let the name fool you, it has vital information for all in the MCL. Remember, Midwinter is a staff meeting and unlike the National Convention, it is a time to engage with everyone here. Meet new members, strike up friendships and most of all ask questions and absorb knowledge. You must also take back to your Detachments or Departments what you have learned and share it. If you are coming to the Commandants Council, bring a pin and paper. You cannot remember all the intel that is passed down.

2024 will be a busy travel year. I look forward to seeing some of you out in your state where I want you to know, I am here for the membership so do not hesitate to come up and start a dialog. We may both learn something.

Respectfully Submitted,

TJ Morgan
National Jr. Vice Commandant
Marine Corps League
