

New England Division Report

The Division as a whole has been focused on recruitment. Most recently three Departments attended an IRR muster in Boston. There was some engagement with potential members for all three Departments. Attending these musters is a great way for the League to get our name out there to those Marines who will soon be separated from the Marine Corps.

Quad State/Division Conference was held in New Hampshire, and it was a success. The Division recognized the sitting Department Commandants for their leadership and dedication. One of the guest speakers was a Marine for Life representative, which making that connection will benefit the League as well.
