

To: National Executive Director/COO Bob Borka

From: Marine Jeffrey D. Jones

Subj: Amending Section 2005 of Administrative Procedures

**Current Language:**

Section 2005. Time and Place.

- C. At the time proposed National Convention bids and locations are presented to the Convention body for consideration, the chairman of the National Convention Committee shall announce to the body whether or not each bid meets all the requirements outlined in Section 265 and announce whether or not the National Convention Committee believes that the proposed locations are acceptable, and if not, why not. If more than one (1) bid is presented, the committee should offer a ranking based on their site visits, airline accessibility, etc.

**Proposed Language:**

Section 2005. Time and Place.

- C. At the time proposed National Convention bids and locations are presented to the Convention body for consideration, the chairman of the National Convention Committee shall announce to the body whether or not each bid meets all the requirements outlined in Section 265 and announce whether or not the National Convention Committee believes that the proposed locations are acceptable, and if not, why not. If more than one (1) bid is presented, the committee shall offer a ranking based on their site visits, airline accessibility, etc.

Rational:

The Convention Committee is comprised of members of the Marine Corps League appointed by the National Commandant. These members travel to the proposed sights on multiple occasions and have firsthand knowledge the benefits and weaknesses of the Proposed Properties. This would allow the membership to get an Honest Opinion on which site we should be voting for. Not from a Professional Produced video by the Town of the Proposed Location.

Respectfully Submitted,

Semper Fi,

Marine Jeffrey D. Jones

Past Department Commandant

Department of North Carolina
